

THE 21st ANNUAL
YALE HEALTHCARE CONFERENCE

AI² Shaping Health with Integrity x Intelligence

April 11th, 2025

**Edward P. Evans Hall
Yale School of Management
165 Whitney Avenue, New Haven, CT 06511**

WELCOME TO THE 21ST ANNUAL YALE HEALTHCARE CONFERENCE!

We are a graduate student-run conference at Yale, bringing together current and future healthcare leaders to fearlessly think, talk, and inspire the future of healthcare. Over 500 students, distinguished academics, and industry leaders can come together to imagine and discover ideas to improve our healthcare system for the better. Each year, we host over 50 distinguished speakers, including keynote speakers, executive panels, breakout sessions, and a cocktail networking reception that serves as a nexus of conversations and community.

In recognition of this being the 21st Annual Yale Healthcare Conference, we are proud to share that the theme for this year's conference is:

AI² Shaping Health with Integrity x Intelligence

Recent advancements in machine learning and artificial intelligence have unlocked new possibilities for applications in healthcare. This year, we aim to explore the potential and challenges of AI in health and healthcare, empowering leaders and innovators to leverage its strength while navigating ethical and practical implications. By separating hype from reality, this conference will provide a balanced perspective on AI's role in advancing health responsibly and sustainably.

LUMINARY SPONSOR ANNOUNCEMENT

LUMINARY SPONSOR

Northwell
Health®

We are thrilled to announce our continued partnership with Northwell Health!

As our Luminary Sponsor, Northwell will contribute \$150,000 to Yale Healthcare Conference over the next 3 years.

This contribution will support the Conference in becoming a completely self-sustaining conference.

We extend our heartfelt gratitude to Northwell Health for their unwavering support in elevating the conference's experience and driving impactful change in the future of healthcare.

CONFERENCE MENU

CONTINENTAL BREAKFAST

*Assorted Muffins, Eggs, and Fresh Fruit
Orange Juice, Coffee, and Tea*

Morning Coffee Break

*Chocolate & Nut and Tropical Fruit Trail Mix
Assorted Greek Yogurts
Coffee and Tea*

LUNCH

Boxed Lunches

*Assorted Sandwiches with Kettle Chips, Fresh Fruit, and Cookie
Soft Drinks and Fruit-Infused Water*

Afternoon Coffee Break

*Lesser Evil Popcorn
Assorted Granola Bars and Fresh Fruit
Coffee and Tea*

COCKTAIL RECEPTION Hosted by Kelli's Kitchen

Charcuterie Table

*8 Assorted Cheeses, Crackers, Fresh Fruit
Fresh Vegetables, Hummus, Nuts, and Dried Fruits*

Tapas

*Tomato Mozzarella Basil Bites
Baguette with Goat Cheese, Apricot Jam & Prosciutto
Watermelon Feta Basil Bites
Shrimp Cocktail*

Refreshments

Wines, Beers, Soft Drinks, Aqua Panna and San Pellegrino Water

CONFERENCE AGENDA

FRIDAY — APRIL 11TH, 2025

Registration & Breakfast

7:30 AM - 8:30 AM | Student Commons

Opening Remarks

8:30 AM - 9:00 AM | Zhang Auditorium

John D Thompson Fellow Keynote with Andrew Bhak

9:00 AM - 10:00 AM | Zhang Auditorium

Morning Coffee Break

10:00 AM - 10:15 AM | Student Commons

Morning Breakout Sessions

10:15 AM - 11:30 AM

- **Session 1** - What's Next for U.S. Health Policy: The Federal-to-Local Perspective
 - **Room 2400**
- **Session 2** - Confronting the Obesity Epidemic: Transforming America's Health
 - **Room 4410**
- **Session 3** - Transforming Healthcare Operations: AI in the Workplace and Workforce Dynamics
 - **Room 4400**
- **Session 4** - AI for Mental Health Support and Care: Meeting the Needs of a Growing Crisis
 - **Room 2200**

Lunch & Networking

11:30 AM - 12:30 PM | Shen Courtyard

Executive Panel with Dr. Galvin

12:30 PM - 2:00 PM | Zhang Auditorium

Afternoon Coffee Break

2:00 PM - 2:15 PM | Student Commons

Afternoon Breakout Sessions

2:15 PM - 3:30 PM

- **Session 5** - Vaccine Policy, Implementation, and Research: Shaping the Future of Public Health
 - **Room 4400**
- **Session 6** - Scaling Solutions in Global Health: Leveraging AI to Tackle Development Challenges
 - **Room 4410**
- **Session 7** - Hyper-Personalized Digital Health: Balancing AI Innovation With Risk
 - **Room 2200**
- **Session 8** - AI-Driven Innovation in Life Sciences and Biotech: Transforming Research, Medicine, and Investment
 - **Room 2400**

Afternoon Keynote with Dr. Nneka Mobisson-Etuk

3:30 PM - 4:30 PM | Zhang Auditorium

Closing Remarks

4:30 PM - 5:00 PM | Zhang Auditorium

Reception

5:00 PM - 6:30 PM | Snyder Forum

DEAN WELCOME MESSAGE

Kerwin K. Charles, PhD

Indra K. Nooyi Dean

Frederic D. Wolfe Professor of Economics, Policy & Management

Yale School of Management

Welcome to the Yale School of Management and to the 21st annual Yale Healthcare Conference. Here at Yale SOM, our mission is to educate leaders for business and society, and we believe that we help fulfill this mission through our collaborations with other schools at Yale and beyond SOM through cross-sector partnerships. Thus, I am pleased to continue this annual collaboration between Yale's Schools of Management, Medicine, Nursing, and Public Health. Together, we are striving to address key challenges and opportunities in healthcare.

This year's theme, AI²: Shaping Health with Integrity and Intelligence, brings together students, industry pioneers, and healthcare professionals at the forefront of AI and healthcare. As artificial intelligence and automation rapidly transform the healthcare landscape, this year's conference allows us to explore how these technologies can be used ethically and responsibly.

Conferences such as this one remain more relevant than ever. On behalf of the Yale School of Management, I thank our organizers, speakers, sponsors, and attendees for their efforts and commitment to this longstanding cross-school and cross-sector collaboration.

Sincerely,
Kerwin Charles

DEAN WELCOME MESSAGE

Megan L. Ranney, MD, MPH, FACEP

C.-E. A. Winslow Professor of Public Health
Dean, Yale School of Public Health

Dear Participants,

On behalf of the Yale School of Public Health, I'm delighted to welcome you to the 21st Annual Yale Healthcare Conference.

I'm impressed by how, year after year, this student-run conference brings together an all-star group of speakers and attendees with the power (and desire) to shape the future. And this year's conference couldn't be more timely.

As we face massive disruptions to our health and scientific ecosystems, "AI²: Shaping Health with Integrity and Intelligence" is both an aspirational and necessary goal. I'm therefore looking forward to engaging with all of you over the course of the day on the conference theme.

As we say at YSPH, we have to "link science and society" if we want our work to make a difference. That vision is more necessary now than ever. Together, we can both understand the latest advancements in the science of AI and engage in tough questions about its best use.

Thank you to our students, co-sponsors, collaborators, volunteers, speakers, sponsors, and attendees for joining us – and most of all, thank you to the Conference co-chairs, Cecilia Lee and Cecil Ehirindu, and to faculty leader Dr. Howie Forman, who make this wonderful day possible.

Sincerely,
Megan L. Ranney, MD, MPH, FACEP

2025 Yale Healthcare Conference

YHC CO-CHAIR WELCOME MESSAGE

Cecil Ehirindu (MBA/MPH '27) & Cecilia Jiye Lee (MPH '25)

Dear Esteemed Attendees,

On behalf of the entire Yale Healthcare Conference team, it is our great pleasure to welcome you to the 21st Annual Yale Healthcare Conference. Today marks a momentous event for our team, and we are truly grateful to have you join us for this entirely student-led conference.

This year's theme, "AI²: Shaping Health with Integrity and Intelligence," invites us to explore the transformative potential of artificial intelligence in healthcare — from cutting-edge innovation to the ethical frameworks that must guide it. As we navigate an era of rapid technological advancement, this conference offers a timely and vital space to ask bold questions, challenge assumptions, and imagine a more intelligent, equitable, and human-centered future in health.

We are honored to be joined today by an exceptional group of keynote speakers, panelists, moderators, and sponsors representing academia, industry, public health, policy, clinical practice, and more. Your perspectives and expertise are what make this conference a vibrant forum for a meaningful network. We are deeply grateful for your invaluable contributions in shaping our conversations and providing insights that will guide our shared efforts to navigate and transform the evolving healthcare landscape. It is a testament to the energy, vision, and teamwork of our executive committee, volunteers, advisory board, and the Yale SOM staff that this event has come to life — and we thank them sincerely for their support and unwavering dedication.

Whether you are here to learn, share, connect, or be inspired, we hope today sparks meaningful conversations and lasting collaborations. We're thrilled to have you with us as we explore how artificial intelligence can — and must — be harnessed to improve care, reduce inequities, and shape the future of healthcare with integrity and purpose.

Welcome, and thank you for being part of this journey.

With warmest regards,
Cecil Ehirindu and Cecilia Jiye Lee

THE JOHN D. THOMPSON DISTINGUISHED VISITING FELLOW AWARD

John D. Thompson (1917-1992) was a Professor at Yale's Schools of Nursing, Medicine, and Public Health, and is perhaps best known for his role in the development of Diagnosis Related Groups (DRGs) for hospital reimbursement. A true innovator, Professor Thompson was an early advocate for the application of quantitative data in health policy formulation. Today's healthcare management students and leaders continue to be inspired by his compassion for patients, dedication to research, and belief in the power of data. The John Devereaux Thompson Academic Development Fund was created in his honor.

The faculty, students, and alumnae of the Health Management Program at the Yale School of Public Health are proud to celebrate and honor the memory of Professor John D. Thompson with the John D. Thompson Distinguished Visiting Fellow Award.

This award pays tribute to Professor Thompson's contributions as an educator, researcher, and mentor in health administration, including his pioneering work in healthcare finance and hospital quality of care.

**This year, we are pleased
to present this award to**

Andrew Bhak

J.D. THOMPSON FELLOW AWARDEE & MORNING KEYNOTE SPEAKER

Andrew Bhak

Managing Director & Head of the Healthcare Investment Banking Group

BMO Capital Markets

Andrew is Managing Director and Head of the Healthcare Investment Banking Group for BMO Capital Markets. Andrew has spent his entire 25-plus year career covering the Healthcare sector. He has served as advisor on more than \$135 billion of M&A transactions, as well as debt and equity financings, for large and small companies, including CVS Health, Agiliti Health, Kindred Healthcare, GreatCall, Diplomat Pharmacy, Quest Diagnostics, Select Medical, and HCA Healthcare.

Andrew joined BMO from JP Morgan where he was a Managing Director in Healthcare Investment Banking. Prior to that, he served as Co-Head of Healthcare Services at Deutsche Bank and served in similar capacity at Morgan Stanley, where he helped build its healthcare services investment banking franchise.

Prior to his career as an investment banker, Andrew was a senior equity research analyst responsible for coverage of the healthcare provider and services sector. Andrew also serves as a Visiting Scholar at the Yale School of Management, on the Leadership Council for the Dean of the Yale School of Public Health, and on the Advisory Board for the Yale Healthcare.

Andrew attended Yale University for his M.P.H. and received his B.G.S. from Kent State University.

AFTERNOON KEYNOTE SPEAKER

Nneka Mobisson, MD, MBA, MPH

Co-founder & CEO

mDoc

Dr. L. Nneka Mobisson has over two decades of experience driving innovation in global healthcare systems and improving population health outcomes. Through her work in the private, nonprofit and public sectors across myriad health systems and economies, she has extensive experience in health and healthcare policy, strategy, innovation, quality, patient safety, disease management, and wellness. She is an esteemed Yale alumna, holding an MD/MBA from Yale School of Medicine and Yale School of Management.

As co-founder and CEO of mDoc, a digital health social enterprise which integrates proven methodologies in data, quality, and behavioural science with web and mobile-based technologies to support people with chronic disease, she is pioneering a new system for cutting edge innovation in healthcare delivery across Africa.

Through her leadership, mDoc has collaborated with the UK FCDO, Google for Startups, USAID, Merck for Mothers, Boehringer Ingelheim and other partners to scale telehealth to drive system transformation.

Dr. Mobisson serves as Faculty Advisor, Institute for Healthcare Improvement (IHI), a leading global health organization focused on healthcare quality improvement, where she provides strategic guidance to countries on developing national quality policies and strategies in health. Prior to founding mDoc, Dr. Mobisson was Executive Director for IHI Africa, where, through her leadership, IHI dramatically expanded its efforts at building sustainable change in healthcare delivery systems across 13 priority countries.

THE EXECUTIVE PANEL

How Will We Know Whether to Trust AI: An Acronym Free Discussion?

This session explores how individuals can assess the trustworthiness of AI in healthcare, focusing on GIGO (garbage-in-garbage-out) errors, AI hallucinations, and data security concerns. Rather than diving into technical details, the discussion will emphasize transparency, accountability, and practical strategies for evaluating AI applications. Attendees will gain insights on distinguishing between high- and low-risk AI, staying informed on advancements, and supporting policies that promote responsible AI use in healthcare.

EXECUTIVE MODERATOR

Robert Galvin, MD, MBA

Executive Advisor, The Blackstone Group;
CEO, The Right Doctor;
Professor Adjunct of Medicine and Health Policy, Yale School of Medicine;
Advisory Board Member, Yale Healthcare Conference

EXECUTIVE PANELISTS

Jennifer Miller, PhD

Associate Professor of Medicine, Yale Liaison, Working Group on: Bioethics of Data Science, Artificial Intelligence (AI) and Genomics Implementation Science Curriculum

Brian Anderson, MD

CEO and Co-Founder of the Coalition for Health AI (CHAI)

Harlan Krumholz, MD, SM

Harold H. Hines, Jr. Professor of Medicine at Yale School of Medicine and Director of the Yale New Haven Hospital Center for Outcomes Research and Evaluation

BREAKOUT SESSIONS

Morning Sessions

10:15 - 11:30 AM

- | | | |
|--------------------|--|------------------|
| Session - 1 | What's Next for U.S. Health Policy: The Federal-to-Local Perspective | Room 2400 |
| Session - 2 | Confronting the Obesity Epidemic: Transforming America's Health | Room 4410 |
| Session - 3 | Transforming Healthcare Operations: AI in the Workplace and Workforce Dynamics | Room 4400 |
| Session - 4 | AI for Mental Health Support and Care: Meeting the Needs of a Growing Crisis | Room 2200 |

Afternoon Sessions

2:15 - 3:30 PM

- | | | |
|--------------------|--|------------------|
| Session - 5 | Vaccine Policy, Implementation, and Research: Shaping the Future of Public Health | Room 4400 |
| Session - 6 | Scaling Solutions in Global Health: Leveraging AI to Tackle Development Challenges | Room 4410 |
| Session - 7 | Hyper-Personalized Digital Health: Balancing AI Innovation with Risk | Room 2200 |
| Session - 8 | AI-Driven Innovation in Life Sciences and Biotech: Transforming Research, Medicine, and Investment | Room 2400 |

What's Next for U.S. Health Policy: The Federal-to-Local Perspective

As the second Trump administration begins, this panel will examine key healthcare policy shifts, including changes to the ACA, Medicaid, and Medicare, drug pricing transparency, and healthcare innovation. Panelists will also discuss the evolving roles of HHS, CMS, and the FDA, exploring the implications for health equity, healthcare organizations, and the broader system.

Keywords: Federal Regulation, Healthcare Policy, Health Equity

MODERATOR

Megan Ranney, MD, MPH

Dean of Yale School of Public Health; C.-E. A. Winslow Professor of Public Health; Professor of Emergency Medicine at Yale University; Elected member of the National Academy of Medicine and the Connecticut Academy of Science and Engineering; Fellow of the American College of Emergency Physicians; Member of the Aspen Global Leadership Network; Founder of two non-profits (AFFIRM at the Aspen Institute and GetUsPPE)

PANELISTS

Amanda Skinner MBA, MSN

President and CEO of Planned Parenthood Votes! Connecticut and Planned Parenthood of Southern New England; Member of Planned Parenthood Federation of America Board of Directors; Chair of BetterHealth Board of Directors; Member of Universal Health Care Foundation of Connecticut Board of Directors

Gregg Gonsalves PhD

Associate Professor of Epidemiology at Yale School of Public Health; Associate Professor of Law at Yale Law School; Co-Director of the Global Health Justice Partnership; Public health correspondent for The Nation

Victoria Veltri JD, LLM

Senior Policy Fellow for National Academy for State Health Policy (NASHP); Former Executive Director of Malta House of Care; Former Executive Director of Connecticut's Office of Health Strategy (OHS)

Confronting the Obesity Epidemic: Transforming America's Health

With obesity rates continuing to rise, the U.S. faces a pressing public health challenge with far-reaching consequences. This session examines innovative approaches to addressing the epidemic, including AI-driven personalized interventions, public health campaigns, and community-based initiatives.

Keywords: Obesity, Public Health, Artificial Intelligence

MODERATOR

John Morton, MD, MPH, MHA, BS, FACS, FASMBS

Professor of Surgery at Yale School of Medicine;
System Lead for Surgical Quality and Bariatric Services in Yale New Haven Health;
Founder of Obesity PAC

PANELISTS

**Bubu Banini
MD, PhD**

Assistant Professor of
Medicine (Digestive
Diseases) at Yale School of
Medicine;
Translational Research
Director of the Metabolic
Health and Weight Loss
Program, Digestive Diseases

**Jorge Moreno
MD**

Assistant Professor of
Medicine at Yale School of
Medicine;
Started subspecialty obesity
medicine clinic

**Wejihat Mehal
MD, DPhil**

Professor of Medicine
(Digestive Diseases) at
Yale School of Medicine;
Director of the Yale Fatty
Liver Disease Program
and the Yale Metabolic
Health and Weight Loss
Program

Transforming Healthcare Operations: AI in the Workplace and Workforce Dynamics

AI is reshaping the healthcare workplace by streamlining operations, enhancing decision-making, and augmenting employee capabilities. This session explores how AI tools are improving administrative efficiency, supporting clinicians, and redefining workforce roles, while addressing challenges like job displacement, upskilling, and ethical considerations in automation.

Keywords: AI Integration, Clinician Support and Organizational Change

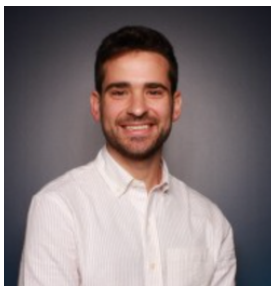

MODERATOR

Katherine Heilpern, MD, FACEP

President of Yale New Haven Hospital;
Executive Vice President of Yale New Haven Health

PANELISTS

**Laurence Coman
MBA**

Co-founder and COO of
AVO

**Allen Hsiao
MD, FAAP, FAMIA**

Professor of Pediatrics and
Emergency Medicine at Yale
School of Medicine;
Chief Health Information
Officer of Yale New Haven
Health;
Vice Chair Clinical Systems,
Biomedical Informatics and
Data Science.

**Trevor Gunn
PhD**

Founder and Chair of the
USA Healthcare Alliance;
Vice President of
International Relations at
Medtronic

AI for Mental Health Support and Care: Meeting the Needs of a Growing Crisis

The mental health crisis demands scalable solutions, and AI is transforming care delivery. This session explores AI-powered tools — chatbots, personalized treatment plans, and early detection systems — along with ethical concerns like data privacy, bias, and patient trust. Panelists will discuss key opportunities and the need for responsible implementation to ensure AI’s success in mental health care.

Keywords: Mental Health, Artificial Intelligence, Personalized Care

MODERATOR

Amber Childs, PhD

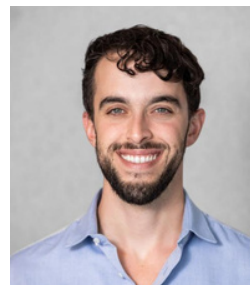

Associate Professor of Psychiatry at Yale School of Medicine; Co-founder and Director of the Getting Racism Out of our Work (GROW) initiative at Yale; Co-founder of the Yale Measurement-Based Care Collaborative; Founder of M-Select

PANELISTS

Shirley Wang PhD

Assistant Professor of Psychology at Yale University; Lab Director of Yale Computational Clinical Science Lab; Forbes’ 30 Under 30 in Healthcare

Luis Voloch

Co-founder and CEO of Jimini Health; Co-founder and former CTO of Immunai

Seth Feuerstein MD, JD

Chairman and Co-founder of Vita Health; Co-founder and CEO of Oui Therapeutics; Executive Director and Founder of Yale Center for Digital Health and Innovation; Assistant Clinical Professor and Lecturer in Psychiatry at Yale School of Medicine

Vaccine Policy, Implementation, and Research: Shaping the Future of Public Health

This panel will delve into the latest advancements in vaccine policy, implementation strategies, and research. Experts will explore how emerging scientific developments are informing vaccine policy decisions and influencing public health initiatives. A key focus will be the ongoing challenge of vaccine hesitancy, examining the factors driving public attitudes toward vaccines and how science communication can help bridge the gap.

Keywords: Vaccine innovation, Vaccine hesitancy, Science communication

MODERATOR

Reshma Ramachandran, MD, MPP, MHS

Assistant Professor of General Internal Medicine at Yale School of Medicine; Co-director of Yale Collaboration for Regulatory Rigor, Integrity, and Transparency; Board certified family physician

PANELISTS

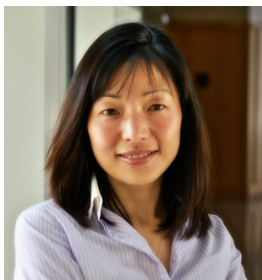

Lauren Pischel MD, MSc

Primary Instructor of Medicine, Infectious Diseases, Yale School of Medicine; Affiliated Faculty, Yale Institute for Global Health

Timothy Callaghan PhD

Associate Professor of Health Law, Policy, and Management at Boston University School of Public Health; Co-director of The Politics and Health Lab; Recipient of the Atlas Award

Akiko Iwasaki PhD

Sterling Professor of Immunobiology and Professor of Dermatology and of Molecular, Cellular, and Developmental Biology and of Epidemiology at Yale School of Medicine; Investigator at Howard Hughes Medical Institute; Co-Lead Investigator of the Yale COVID-19 Recovery Study

Scaling Solutions in Global Health: Leveraging AI to Tackle Development Challenges

AI holds the promise to address pressing public health challenges, from disease modeling to healthcare accessibility. This session explores how AI-driven insights can guide policymaking, and improve resource allocation, while examining the challenges and opportunities of implementing these solutions. Experts will also discuss AI's potential to facilitate data sharing and communication in the changing landscape of public health.

Keywords: Global health innovation, AI Bias, Data protection

MODERATOR

Michael Dunne, MD

Founder and Board of Directors member of Iterum Therapeutics;
Founder of Durata Therapeutics;
Former Chief Medical Officer and Head of Development at the Bill and Melinda Gates Foundation;
Former Vice President of Clinical Development at Pfizer;
Editorial Review Board of the journal Clinical Infectious Diseases

PANELISTS

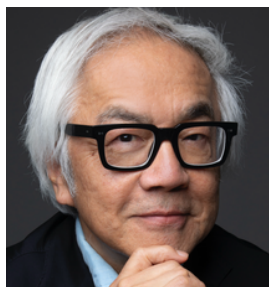

Reza Yaesoubi PhD, MSc

Associate Professor of Health Policy at Yale School of Public Health;
Assistant Professor at Yale's Institution for Social and Policy Studies;
Affiliated Faculty at Yale Institute for Global Health

Malick Diara MD, MPH, MBA

Occupational Health Manager;
Global Medicine and Occupational Health Department;
ExxonMobil Global Operations and Sustainability

John Kao MD, MBA

Senior Fellow at Yale School of Engineering and Applied Sciences;
Chairman Emeritus of ThayerMahan, Inc.

Hyper-Personalized Digital Health: Balancing AI Innovation with Risk

As AI becomes more deeply embedded in digital health, healthcare leaders and technology innovators are working to balance rapid innovation with risk, privacy, and trust. This panel brings together experts shaping the future of AI-enabled healthcare to discuss how organizations are designing systems that safeguard patient data, meet compliance standards, and build trust in a fast-changing landscape. The discussion will highlight real-world strategies from both health systems and tech companies to responsibly scale AI in digital health.

Keywords: AI Innovation, Privacy & Risk, Strategy

MODERATOR

Dr. Robert Stavert, MD, MBA, FAAD

Medical Director for Digital Patient Experience and Virtual Care at Yale New Haven Health System;
Co-founder and Head of Clinical Affairs of Medumo;
Director of Community Engagement in Yale's Department of Dermatology;
Former YHC Chair

PANELISTS

Nick Culbertson

Co-founder and CEO of Protenus;
Managing Director of Techstars;
Advisory Board Member for The Johns Hopkins University

Jason Naidich MD, MBA

Chief Learning and Innovation Officer at Northwell Health;
Associate Dean at Zucker School of Medicine;
Leads Center for Learning and Innovation (CLI)

Lee Schwamm MD

Associate Dean, Digital Strategy & Transformation at Yale School of Medicine;
Professor in Biomedical Informatics & Data Sciences and Professor of Neurology at Yale School of Medicine;
Senior Vice President & Chief Digital Health Officer of Yale New Haven Health System

AI-Driven Innovation in Life Sciences and Biotech: Transforming Research, Medicine, and Investment

Artificial intelligence is revolutionizing life sciences, driving breakthroughs in precision medicine, pharmaceutical R&D, and biotech innovation. This session will explore how AI accelerates drug discovery, enhances clinical trial efficiency, and enables individualized treatment plans through advancements in genomics, predictive analytics, and disease modeling. Additionally, we will examine the role of AI in shaping investment strategies, optimizing costs, and expanding patient access to cutting-edge therapies. Join leading experts as they discuss the intersection of AI, biomedical research, and the evolving landscape of healthcare innovation.

F-Prime is a global venture capital firm investing in life sciences, healthcare, and technology. **F-Prime** works closely with entrepreneurs and academics to create innovative solutions to some of the worlds most significant challenges in healthcare and technology.

Founded by serial entrepreneur and Yale alum Kevin Ryan, **AlleyCorp** is a New York-based venture capital firm that incubates and invests in transformative companies across healthcare, AI, consumer tech, enterprise software, deep tech & robotics, economic infrastructure, and more.

As one of the most active early-stage investors in New York, **AlleyCorp** focuses on investments at the incubation, pre-seed, seed and Series A stages. For more information, please visit alleycorp.com.

THANK YOU FOR JOINING US

The Yale Healthcare Conference extends heartfelt gratitude to all who participated in this transformative event. Your presence and contributions have deeply enriched the dialogue around artificial intelligence in healthcare, sparking new ideas and fostering meaningful collaboration across the healthcare and life sciences communities.

We are especially grateful to the esteemed healthcare organizations at Yale and beyond for their invaluable support and partnership. Together, we are navigating the rapidly evolving landscape of AI with integrity, intelligence, and a shared commitment to innovation.

Thank you for being a part of this exciting and inspiring journey. We look forward to continuing our shared pursuit of excellence, advancing responsible, equitable, and impactful applications of AI in healthcare.

With Gratitude,

The Yale Healthcare Conference Executive Committee

THANK YOU

We thank the following staff and faculty members at Yale for their unwavering support and invaluable advice in making this event a success.

2005: The Founding Members

Eric Anderson, PhD, MBA '07; Paul Coggin, MPM '95; Samuel A. Forman, MD, MBA '95; Laura Hill, MPH, MBA '06; Julie Huang, MPH, MBA '95

THANK YOU

We are proud and honored to be supported by our Advisory Board, a group of talented and accomplished luminaries in the healthcare and life sciences industry.

The Board, headed by our faculty advisor, Dr. Howard Forman, meets monthly with the Co-Chairs and the Student Executive Team of the Conference to receive updates and to provide valuable advice to the planning process.
